#### FILING OF AN INFORMATION DISCLOSURE STATEMENT UNDER 37 C.F.R.§1.97(b)

The attached list of citations on PTO Form 1449 is being submitted under the provisions of 37 CFR §1.56 and §1.97 in order to comply with the duty of disclosure. Their inclusion herein should not, however, be construed as an admission that any particular cited reference is effective prior art or that it discloses or renders obvious any aspect of the claimed invention. A copy of each cited reference is enclosed. This statement is being filed within the time period specified in 37 CFR §1.97(b). No fee is required.

Applicants direct the Examiner's attention to the following table of copending applications. Althought all of these applications are being submitted in one form or another, the relationship between the WIPO publication, the pending U.S. application, the published application, and the internal docket number are set forth in a manner believed to better clarify their position to the Examiner. Where the applications are pending, with amended claims from the US publications, those claims are attached herewith.

Applicant respectfully requests that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached form, separate PTOL 1449 form.

This submission does not represent that a complete search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." Applicants reserve the right to present to the Office the relevant facts and law regarding the appropriate status of such documents.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

If there is any fee due in connection with the filing of this Statement, please charge the fee to our Deposit Account No. 19-2570.

Respectfully submitted,

Dara L. Dinner
